We will be renting the Tamarrack Pines as a group again this year. More info will be in next month's newsletter. At the Pines you can not have dogs in the rooms. Rooms range from \$200 to \$500 for the two nights. There are 5 rooms. Rooms will be available first to "Core Members" that work much of the event. The parking lot is small so you must be able to drop your dogs off your vehicle. There is room for tie-outs where we sled from but not in the parking lot.

Those staying at the lodge will sign up for bringing different food items for the group

Right next door to the pines is -

Tamarack Lodge at Bear Valley

"209-736-9902" messages "209-753-2310" onsite 209-768-5346 cell

BASH has stayed here in the past and recently they again are renting to individuals. NO PETS in rooms. They have single rooms and out buildings for families.

For those that want dogs in their room or can't drop off the car, there are places to stay in Arnold and Angels camp. Which are 30-45 minutes drives from where we are.

Needed- an updated BASH website- anyone interested?

The BASH website is about 12-14 year old...and needs updating. Many things can come off and a few things need to be added. Currently some part are very hard to update without a degree..... Some parts need to be built around parts that come from other websites.

We know this will not be an overnight change but hopefully in the near future (like before 2015)

You will need to be available to talk and work with Randy Fishel so that the sections he has built and we use all the time will be worked with and or around.

We had worked with another person for over a year on design what basic needed to be done, but we never got beyond that.

If you are interested or have someone that you would recommend, please feel free to contact Randee McQueen at BASH@com-ctl.com.

Christmas Treat Recipe

- Mix 2 cups all-purpose flour, 1½ cup whole wheat flour, ¼ cup cracked wheat, 1/8 cup dry milk and ½ teaspoon salt. Add ¼ cup water, 1 tablespoon raw honey, 4 tablespoons olive oil, 1 beaten egg and 1 capsule of vitamin E. Poke a hole in the capsule and drain the oil out. The vitamin E acts as a preservative that will keep your dog treats fresh. Mix well. When it gets too hard to mix with a spoon, use your hands to work the dough into a ball. Roll the dough out onto a floured work surface to ¼ inch thick. Cut shapes with cookie cutters and place the dog treats on a lightly greased cookie sheet. Bake the dog treats in a preheated 300-degree Fahrenheit oven for 30 minutes.

When all the batches of dog treats are cooked, pile them all on one cookie sheet and leave them in the oven at 175 degrees Fahrenheit for two hours. This will remove the moisture, which will allow you to keep the dog treats in your cupboard shelf rather than in the refrigerator.

You may change out the ingredients to this basic recipe to create your own signature dog treat recipe. Replace the olive oil with peanut butter or flax seed oil. Replace the cracked wheat with flax seeds, sunflower seeds, cornmeal, crushed pumpkin seeds or liver powder. Replace the honey with molasses.

Chopper is a handsome white husky with stunning blue eyes. He is probably three years old and weighs about 60 pounds. Chopper is a well mannered house dog. He likes to sit on a chair at the kitchen table pretending he is a human. He will go and lie down in his bed when told to go to bed. He likes to sleep in a crate but barks when locked in. Chopper will also come to you and woof twice when he needs to go out. He walks well on a leash and likes to stay near his human companion. He is social with both large and small dogs but really prefers to be with people. He would be happy living with or without dog companions. Chopper readily sits when asked too. He is very smart, eager to please, and easy to train. Chopper does bark when excited and when his person is leaving the house. Fortunately he calms down quickly and is quiet when left alone..

Are you looking for a running partner? Dante's small stature, 42 pounds, sleek coat, and beautiful gait make him a great runner. Dante is about 1 year old, a mere pup. He does need more training but is a quick study and eager to please. He is sweet, loving and loves to snuggle while watching TV (after the run, of course). He loves other dogs both big and small, but is a bit much for our 7 pound dog. He just plays to rough. I do not know if he is good with cats. Although he seems to love children, I do not recommend him for a family with children. He guards his food bowl and high value toys and treats. We are currently working with him on this issue but whoever adopts him will need to continue with modifying his behavior. Happily he is quickly learning to trust us with both food and grabbing his collar. He is housebroken but is not crate trained. Please if you would like to adopt this dog or any other dog check out the web site openpaw.org.

Riley is a copper red Malberian (Siberian Husky and Malamute mix) At 70 lbs he is larger than the typical Siberian Husky, but he does walk fairly well on leash. He enjoys being with the family and gets along great with my two husky mix dogs. He is sometimes a little slow to warm up to other dogs, and has been good with medium to large dogs after getting to know them. He is a good companion and likes to play, go for walks and cuddle when you are home, but can left alone at home during the day without being destructive. He is a dog that is best met at my home or a near by park.... His pictures do not show what a beautiful dog that he is. Call or Email to arrange a meeting with Riley and see if he's the right dog for you

Barbie is a 1.5 y.o. 51 lb. Siberian Husky female with striking blue eyes that is an absolute cuddle bunny, affectionate, friendly and loves to give kisses. She has a calm temperament and likes to just lay and nap near people. Very smart and observant; learned how to "sit" and "down" in 2 days. Walks great on a leash and is crate trained.

Barbie needs to be in a home where she is not left alone for long stretches of time, and NO SMALL DOGS.

Thor has bright blue eyes and a thunderbolt down his nose, just like his namesake. He is a beautiful, happy young boy eager to be a part of your family and home. He is good with children and large dogs and knows his doggie play manners. At 18 months old, he will be the perfect companion for your hiking, running, and laying around the fire adventures. He is crate and kennel trained and ready for his forever home!

We just got Violet from the shelter. She had gone to adoptions but was returned because they weren't ready for a siberian. She is white with a black tongue....any northern breed can have a black or partially black tongue. It does not mean she has any chow in her....but many do not know this. She is a sweet dog with some basic training, is housetrained and walks ok on a leash. She is good with other dogs and kids that are of an age to handle a siberian. She can be a littly mouthy to get attention. As we know more about her we will post more.
