Mark your calendars January 31, Feb 1,2

If we don't get significant snow by the 14<sup>th</sup> or so, we will have to cancel SnoBASH 1 and hope for snow for a rescheduled for early spring- cross your fingers...

We will be renting the Tamarrack Pines as a group again this year. More info will be in next month's newsletter. At the Pines you can not have dogs in the rooms. Rooms range from \$200 to \$500 for the two nights. There are 5 rooms. Rooms will be available first to "Core Members" that work much of the event. The parking lot is small so you must be able to drop your dogs off your vehicle. There is room for tie-outs where we sled from but not in the parking lot.

Those staying at the lodge will sign up for bringing different food items for the group

Right next door to the pines is -

BASH has stayed here in the past and recently they again are renting to individuals. NO PETS in rooms. They have single rooms and out buildings for families.

For those that want dogs in their room or can't drop off the car, there are places to stay in Arnold and Angels camp. Which are 30-45 minutes drives from where we are.

## What Is coming up in the new year???

Elections? We haven't been very formal the last couple of years. Greg would like to step down as Vice President.... I am not sure about any of the others (I would like to stay as Treasurer) and Anthony would like to stay as a board member and will stay as President if no one is interested....so if you are interested in being on the board.... Contact Randee and let her know.

Recommendation for anyone that can help with redoing the website.... A few people have been sent our way but so far they aren't in our area and with all the FANTASTIC things that Randy has set up with our website that work we need someone who is around the south bay area and that will work with us on the spaces that need to stay.

### Events-

Does anyone have ideas of new things that they would like to do? We have our fun match, Umunhum camping, Ice Cream Social, Christmas party.... Does anyone want to set up and manage a hike somewhere with our dogs? A carting event not at Umunhum? Other ideas....

If so, let Marie Stevens know at [sleddingshopper@pacbell.net](mailto:sleddingshopper@pacbell.net)

The 2014 calendar is done and we will start working on the 2015 one....so send your pictures to us.....

Patty La Cava- [pattylacava@yahoo.com](mailto:pattylacava@yahoo.com) 415-722-5727

Autumn is a 9 month old grey and white Siberian with brown eyes. She is petite and weighs about 33 pounds. As an adult she will be under 40 pounds. She has been taken to dog parks and is well socialized with dogs of all sizes.

She is a bit whiney in a crate but will settle down and sleep through the night.

Autumn has some obedience training and even knows a few tricks. She does know how to touch your hand with her nose on command. A great trick that can be used to teach many other behaviors. She does need work on learning to walk in a straight line while on leash. Autumn is a bit hand shy and does not like her collar being grabbed. She does need some work on handling issues. She will also guard toys and needs to learn that toys can be traded for all kinds of yummy treats. Autumn would love to go

home with a person who will boost her self confidence in a loving way. Autumn would also make a great running companion. She is house broken and good with calm older children.

Napu is a 5 year old white Siberian with brown eyes. He is one of the sweetest "cuddle bear" dogs that I have ever met. Napu has an injured left hind leg, most likely a torn ligament. Any surgery needed will be covered by the club. He will need some rehab work. If you are looking for a walking companion, Napu would be a great one. Even with his injury he wants to walk. Plus walking would be important to build up the muscle in his injured leg. Napu was left at the pound with a Shitsu companion and is wonderful with small dogs. He is also constantly playing with Autumn despite his injury. Napu is house broken, crate trained, walks well on a leash, and has some obedience training. He loves everyone he meets and is good with children.

Tyler is the father of the puppies on our website.

Tyler walks ok on a leash but needs basic obedience training. He is VERY well mannered and is working on sit, down and come. He rides well in a car (but it takes a little coaxing to get him in) He takes treats nicely. He is extremely affectionate. He would love to just sit in your lap. Stays very close to those that he likes. When he was at the kennel they said he didn't try to escape at all. He also sat by the gate for hours waiting for them to come back to see him. He gets along with large dogs but we don't recommend small animals. He sleeps all night in a crate

Aldous is an all white male Siberian Husky with a beautiful shiny coat and sky blue eyes. He looks stellar and he is in great physical health. He is very people friendly and always likes to meet new people. Unlike all of my dogs, he likes to play fetch. He loves going on walks and going for rides. I have taken him to the park, the beach, and the local river and he seems right at home. He loves other dogs especially young ones his age that like to play. One of our dogs is a small Yorkie named Mops and he

is the same age as or maybe a little younger than Aldous. He does not love being in a crate and it is difficult to get him into one, but once inside he seems to lay down and behave. I have found it difficult to leash train him, but with all the other dogs it is hard to find time. I think with time and patience he could be obedient, although he is a slow learner. He is definitely a highly active dog and he is very strong in my opinion, a very active family would best suit him. He seems to be good with kids too. He does like to counter surf, even though he knows he is not allowed, but he likes to test the limits. That's Aldo

SASHA and TARA The puppies mom is a Am Staff/french bull dog mix and dad is a pure bred siberian (Tyler on our site) The mother has a fantastic personality... Both [arents are great and we were contacted by a person who knows all and has a puppy from a previous litter who is beautiful. The mom and pups were lucky that someone cared about them and talked the owner into surrendering them to the shelter. The pups are all healthy and fun but besides that we can't say much. They have been spayed and have one DHPP shot. The adoption fee is \$500 and includes shots through rabies at our clinic. We set the fee on adoptability and not our costs in a dog. The extra that we get on a puppy will pay for another dog's knee surgery.
