DUES are Due...

BASH's membership goes from April to March. 95% of the members are on our e-mail list. You have until May 1 to renew. Those people on the e-mail list will NOT receive a notice if they are dropped. If you receive the newsletter by mail, your expiration date is on the mailing label.

We are not doing much, but we still have costs and dues help pay for some of that.

Great places to hike/walk with your dogs in the Bay Area and Monterey Bay????

We would like to create a list of places for people to walk with their dogs, direction to that place and rules for that place sent to us.... We will compile it and make it available through this newsletter and on our website.

Many of us know of one or two places but it would be GREAT to hear where other people walk. Whether it is a short walk or long it is great to have a list of places to go when we suddenly realize the weather is good and we have time to go for a walk with our dogs.

If you have pictures and maps that would be great to add also into the file

Umunhum Run- instead of SnoBASH ☹ March 2012

We had a good group and had fun. There were about 32 dogs and we ran them on 3 ATV's with one ATV running along with us. It is a great way for people to experience carting. We also had a

couple of new people come. It is great that everyone

pitches in and helps harness, get collars on, put out drops and everything to make the event work quickly and successfully. We have a great group of people in BASH

Easter Egg Dog Biscuits

Easter is all about treats from the Easter Bunny, but as we all know chocolate is a definitive no-no for dogs. So to pamper your favorite doggo this Easter season try our Easter Egg Dog Biscuit recipe to get them in on the spirit!

These biscuits can be used in a fun Easter Egg Hunt for dogs, or just a special treat over the Easter holiday. Either way your pupper is going to love it!

Let's get started!

INGREDIENTS

Makes approximately 12+ biscuits.

Biscuits:

1 and ¼ Cups Rice Flour

2 Free Range Eggs

2 Tablespoons Coconut Oil

¼ cup Whole Wheat Flour

Icing (Optional):

Yogurt Drops

Natural Food Coloring

HANDY HINTS

- Have your eggs at room temperature for best results.
- Flours can be alternated with almond or coconut flours.
- If your dough becomes too dry and crumbly spray sparingly with water to improve the consistency.
- Don't stress – dog biscuits tend to be more crumbly without all that butter and sugar holding them together!
- For dogs with sensitivities, yogurt can be alternated with carob chips (or opt for no icing at all with our *'Aint Nobody Got Time For That'* Decoration Instructions!)

Note: The recipe is for treats only and should not replace your dog's regular meal plans. Always check with your vet about any major changes to your dog's diet.

COOKING INSTRUCTIONS

1. Whisk eggs and set aside.
2. Combine rice flour and coconut oil in a bowl. Once combined add the eggs and mix to form a dough.

3. Slowly add the whole wheat flour in small portions and knead with your hands until your dough reaches a non-sticky consistency that can be rolled out. You probably won't need all the flour to do this depending on the size/quality of your eggs used.
4. Split your dough into two sections. For each section roll your dough into a ball and place on a sheet of baking paper. Slightly flatten the dough and place another sheet of baking paper on top. Then roll your dough to around ¼ inch thickness.
5. Repeat for the second section of dough and place both sections of rolled dough on a cutting board and leave in the fridge for 20 minutes. This chills the dough and makes it easier to cut designs that hold their shape.
6. Remove both sections of rolled dough from fridge. Using an oval cookie cutter, cut out the biscuits and place on lined baking trays. Repeat until dough is finished (you don't need to re-refrigerate the dough). If you don't have time for icing your biscuits later, you can use a baking skewer now to draw decorations into your biscuits or stamp them with designs. (see more under 'Icing Your Biscuits')
7. Pop your cut out biscuits on their trays into the freezer for 30 minutes. This will prevent them from spreading when baking.
8. Preheat oven to 350°F.
9. Remove biscuits from freezer and bake for approximately 15 minutes or until golden. Place on baking rack to cool.

DECORATING YOUR BISCUITS

When it comes to decorating your dog's Easter biscuits I subscribe to one of two methods. One is the '*Aint Nobody Got Time For That*' Decoration Instructions – included in the cooking instructions above...which can be as simple as carving designs into the biscuits before baking or hand stamping them with messages.

To be honest, if I'm making biscuits just for my dog I'll go with this method! However if they're for a special occasion or for sharing with our favorite doggie friends I'll make a yogurt icing which is as simple as can be...

YOGURT ICING INSTRUCTIONS

1. Melt your yogurt drops in a heat safe bowl over boiling water stirring consistently.
2. Once melted remove from stove and separate into individual bowls and add natural food coloring to get your desired colors.
3. Pipe onto biscuits in your desired patterns, or simply dip your biscuits into the mixture and leave to harden.

Umunhum Run February 2014

We had 28 dogs, 2 ATV's, 1 - 3 wheeled cart and 14 people. We had a good run even though it was warm for this time of year (60 degrees)

Until summer we will try to do these on Sunday's when I have time.

I will usually post them on the BASH list. Weather is always a factor this time of year so it is really hard to plan to far in advance.

Here are a few pictures of us running.

Nitro! That's me! I am a happy, playful young boy of about a year old. I have one gorgeous brown eye and one blue eye, am black and white, and about 50#. I am such a good boy I passed everything and my foster mom thinks I would have fun with agility, trails, mushing, and all the things!

I am good with dogs of all sizes and elementary age children and up. I am crate and house trained but need more leash/harness training. My forever home is active, experienced with working dogs and has time to spend having fun with me. I don'tt think I would do well in an apartment/no yard situation because of my playful energetic outlook on life. I could be with another companion dog or solo though! I look forward to meeting you!!

Watch the website as we have taken in a couple of young Siberians that will be posted when they are altered.

If this email had a tail, it would be wagging right now, because we have some exciting news.

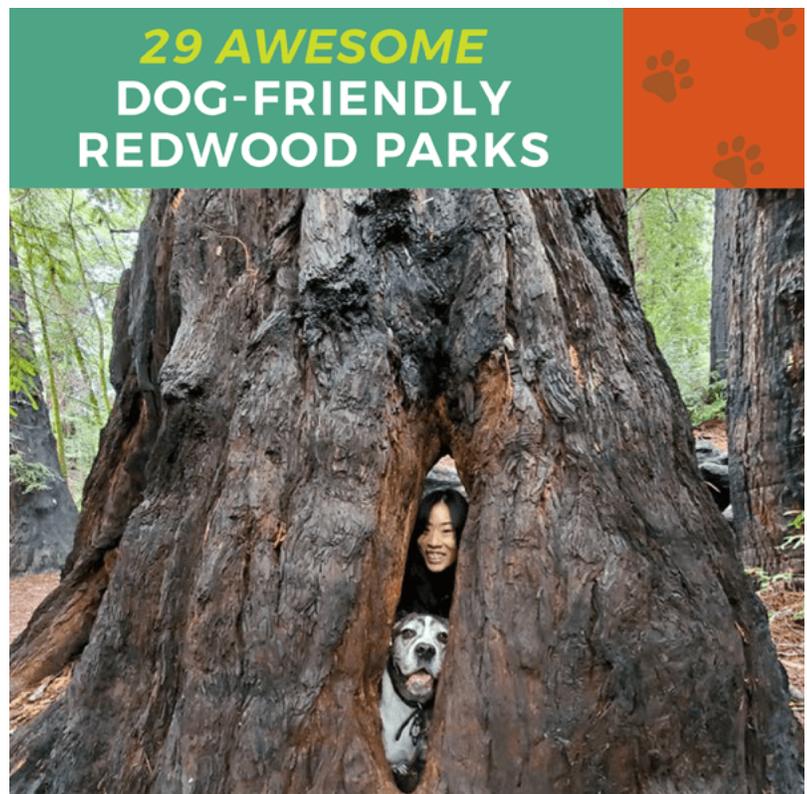

[Our brand-new guide to dog-friendly redwood parks is ready to download!](#)

Maybe you have your own furry friend who loves bounding through the forest. Maybe you have a loved one who won't get out to hike unless Fido can join. Or maybe you just enjoy seeing paw prints when you're out on the trail.

In these pages, you'll find tips on the best parks to visit with pups... because the wonders of the redwood forests aren't just for humans.

Hope to see you out on the trails soon!
